Result	<p>The examination has been finished under the supervision of the committee on (yyyy/mm/dd) at (location), and the result of defense was as following, please check.</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 20%;">Passed or Failed</td> <td style="width: 80%;">Average of sum (submit integer only)</td> </tr> <tr> <td style="height: 30px;"></td> <td></td> </tr> </table>		Passed or Failed	Average of sum (submit integer only)			Signature of Committee Members								
Passed or Failed	Average of sum (submit integer only)														
<p>This notice is from Graduate Institute Of Veterinary Pathobiology</p>															

Notice	<ol style="list-style-type: none">1. Doctoral students in this program may apply to participate in the doctoral candidate qualification assessment after two years of study.2. The assessment for the doctoral candidate qualification requires the doctoral student to write a "Research Proposal" and submit it for written review. The assessment committee will evaluate and score the proposal. Only those who pass the written review may apply for an oral examination of the "Research Proposal," which will also be evaluated and scored by the assessment committee.3. For doctoral students participating in the doctoral candidate qualification assessment, both the written review and oral examination scores of the research proposal must be at least 70 to pass. If a student fails any part, they may apply for a retake once; if they still fail, they will be required to withdraw from the program.4. Doctoral students participating in the qualification examination have the right to inquire about their scores. If there are any disputes regarding the grading, they may apply for arbitration from the teaching evaluation committee.5. Doctoral students who pass both the written review and oral examination of the research proposal will be notified by the program to register with the academic affairs office as doctoral candidates.
